Aerial Connection

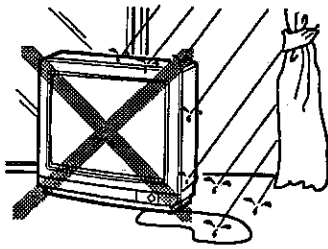

For all aerial circuit problems please consult your local dealer.

Warnings and Cautions

 **Warning**

High voltages are used in the operation of this television receiver. Do not remove the cabinet back from your set. Refer servicing to qualified service personnel.

 **Warning**

To prevent fire or electrical shock hazard, do not expose the television receiver to rain or moisture.

 **Warning**

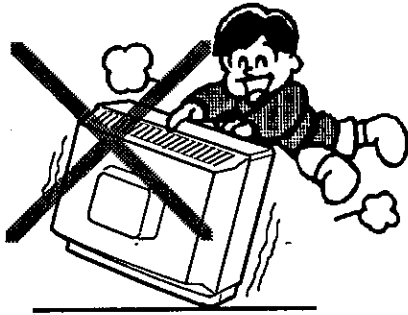

Do not drop or push objects into the television cabinet slots or openings. Never spill any kind of liquid on the television receiver.

 **Caution**

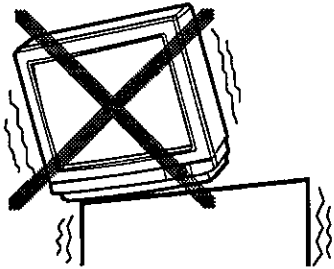

If the television is to be built into a compartment or similarly enclosed, the minimum distances must be maintained. Heat build-up can reduce the service life of your television, and can also be dangerous.

Warnings and Cautions

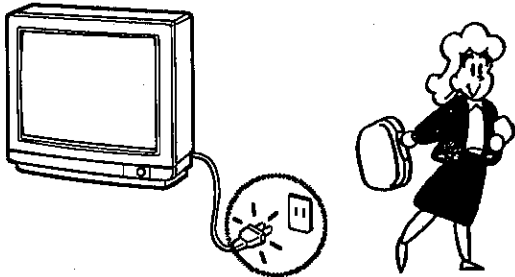

Caution

Never stand on, lean on or push suddenly the television or its stand. You should pay special attention to children. Serious injury may result if it should fall.

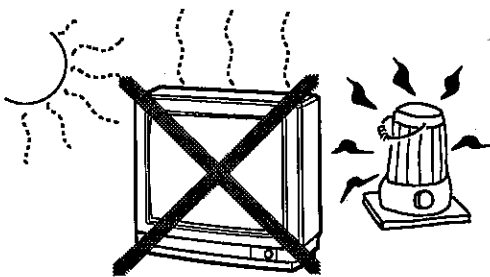

Caution

Do not place your television on an unstable cart, stand, shelf or table. Serious injury to an individual, and damage to the television, may result if it should fall.

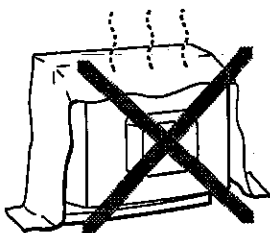

Caution

When the television receiver is not used for an extended period of time, it is advisable to disconnect the AC power cord from the AC outlet.

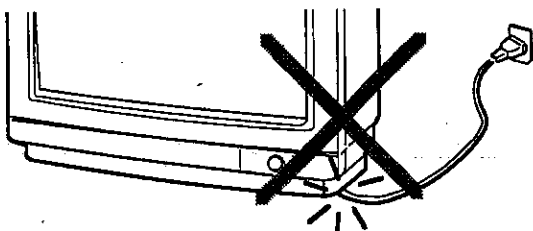

Caution

Avoid exposing the television receiver to direct sunlight and other source of heat. Do not stand the television receiver directly on other products which give off heat. E.g. video cassette players, audio amplifiers.

Caution

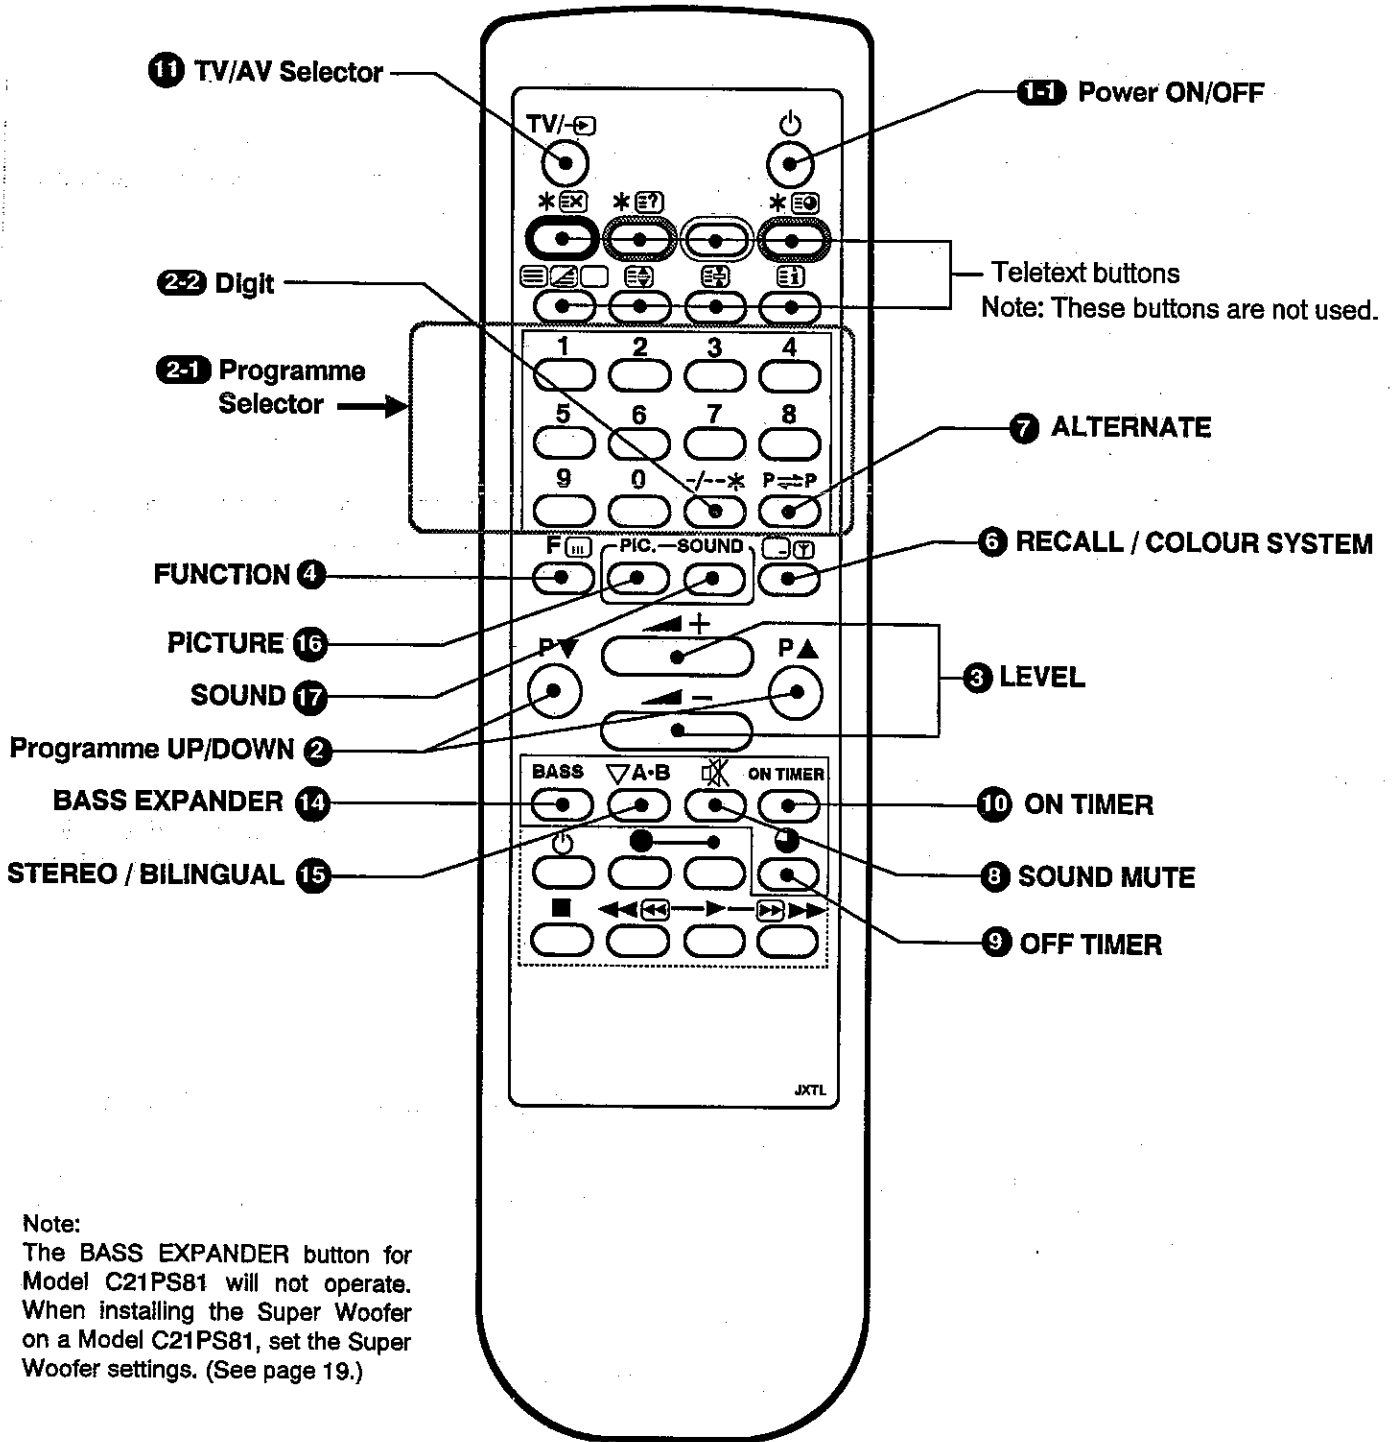

Do not block the ventilation holes in the back cover. Adequate ventilation is essential to prevent failure of electrical components.

Caution

Do not squash power supply cord under the television receiver.
