

## Check here to find an Endorsed Antenna Installer (4 Feb 2011)

To qualify for endorsement under the Antenna Installer Endorsement Scheme, each installer has provided evidence indicating that they have:

- at least 12 months experience performing installations or upgrades for the reception of free-to-air digital television
- public liability insurance cover to the minimum value of \$5 million
- a digital Signal Meter that is capable of measuring signal level, bit error ratio (BER) and modulation error ratio (MER)
- an ABN or an employer's ABN

*It should be noted that the endorsement scheme is non-mandatory, with participation being entirely at the discretion of installers. Endorsement under the scheme and use of the logo does not indicate that the Commonwealth Government guarantees the quality of an installer's services, only that the installer has been assessed under our criteria as appropriate for endorsement.*

*The Commonwealth Government does not accept liability arising from any act or omission by installers in connection with their performance of services within the scope of their endorsement under the Scheme.*
