Introduction

The FOXTEL Digital Remote will enable you to:

1. Operate your FOXTEL Digital service
2. Control the main functions of your television (e.g. Volume Adjustment)
3. Control other pieces of audio/visual equipment connected to your FOXTEL service

This Advanced User Guide will provide you with easy to understand instructions on how to use the FOXTEL Digital Remote to control your television by inputting manufacturer codes into the FOXTEL Digital Remote. These codes are provided in the back of this guide. This will enable the FOXTEL Digital Remote to control almost any television!

If your television brand is not included or you are having difficulties entering the codes, you can “learn” the codes into the FOXTEL Digital Remote.

Note: For information on using the FOXTEL Digital Remote to operate the FOXTEL Digital service, refer to the “FOXTEL Digital Set-Top Unit” Guide which was provided to you at your installation.

Batteries

The FOXTEL Digital Remote requires 2 new AA (LR6, UM3) alkaline batteries. When the batteries need replacing, a message will appear on the FOXTEL Service and a battery low symbol will be in the i-Search banner.

To change the batteries:

1. Remove the battery cover by pushing back the catch at the bottom of the FOXTEL digital remote and then lift off the cover.
 2. Remove the old batteries
 3. Install two fresh AA (LR6, UM3) alkaline batteries as indicated by the illustration in the battery compartment. Be sure to match the + and – marks on the batteries to their respective marks inside the battery compartment.
 4. Replace the battery cover by inserting the tabs at the top of the battery cover first, then pushing the cover into place.
- Do not leave flat batteries in your FOXTEL Digital Remote
 - Do not mix different battery types, eg Alkaline and Manganese.
 - Do not mix old and new batteries – replace both batteries at the same time
 - Dispose of flat batteries in an environmentally-friendly way

The FOXTEL Digital Remote

FOXTEL

Takes you from the TV Guide (or any FOXTEL Digital menu screen) to the last channel you were watching

av

Switches to 'AV mode'

box office

To order movies and events from the FOXTEL Box Office

tv guide

Displays your FOXTEL Digital Guide's programme listings screen

setup

Displays the Setup screen where you can change the set-top unit's settings

vol + and –

Changes the volume up or down

mute

Turns the sound on or off

colour buttons

Use to select the matching colour option shown on screen

red colour button

Launches an active service when you see the red button on your TV screen

number buttons (0-9)

Use to change channel, enter numbers and select on-screen options

Power

Puts the set top unit into or out of standby

active

Displays the Active screen for FOXTEL's range of interactive services

planner

Displays the Personal Planner, to view your programme reminders

i

Displays more information about a programme

ch + and –

Changes channel and pages up and down through listings in the TV Guide

arrow buttons

Moves the highlight around the screen

select

Confirms a choice or makes a selection. Also displays the i-Search banner

help

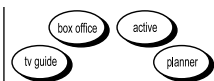

Takes you instantly to the FOXTEL Digital Help Channel, regardless of what channel or menu you are viewing

back

Jumps back to the previous screen or previous channel you were watching

Using the FOXTEL Digital Remote with the FOXTEL Digital Guide

You can use the following buttons on the FOXTEL Digital remote to perform the following functions on the FOXTEL Digital service:

- To display any section of the FOXTEL Digital Guide, press the corresponding button on your FOXTEL Digital Remote (e.g. to display FOXTEL **Box Office**, press box office)

- Use the **arrows** to move the highlight around the screen, then to choose the highlighted item, press **select**.

- On many of the FOXTEL Digital Guide screens, you use the **colour** buttons to choose options or change the display. When a colour button is displayed next to an option, press the same colour button on your FOXTEL Digital Remote to choose that option.

- Press the **number** buttons to enter numbers on the screen. You can also use the number buttons as a short-cut, whenever a numbered list is shown. You can use the **number** buttons to write the letters and symbols marked on the buttons onto the screen. Press the button once for the first letter, and again for the next letter, until the letter you want is displayed (similar to sending text messages with your mobile phone).

- To see information about a highlighted programme, press **i**

- To exit any screen, without saving any changes, and go **back** to the previous FOXTEL Digital Guide screen, press back.

- When full screens of listings are displayed, you can press **ch +** and **ch -** to 'page up' and 'page down' a full screen of listings.

- To return to the FOXTEL Digital channel you were last watching, press **FOXTEL**.

AV Mode of the FOXTEL Digital Remote

Pressing the av button on the FOXTEL Digital Remote allows:

- The FOXTEL Digital STU to route the input from the VCR SCART connector on the back of the FOXTEL Digital STU to the output of the primary or TV SCART. In practice this means your VCR (or DVD Recorder) should be connected to the VCR SCART connector on the FOXTEL Digital STU. Pressing the av button displays the VCR's output on the television. If nothing is connected to the VCR SCART on the FOXTEL Digital STU then pressing the av button on the FOXTEL Digital Remote blanks the television screen
- The FOXTEL Digital Remote to enter AV mode. In AV mode as a default the FOXTEL Digital Remote buttons are disabled unless it has been programmed as shown in this guide (in which case it will control your television's functions)

To identify which of the two SCART connectors is the VCR SCART look at the back of the FOXTEL Digital Set Top Unit, the VCR SCART will be marked either VCR or with the  symbol.

Using the av button with a loop-through device

You may wish to connect more items of equipment to your television than your television has connectors to support (e.g. the FOXTEL Digital STU, plus a VCR, DVD player and/or games console). In this circumstance the FOXTEL Digital STU can act as an AV switcher allowing the television connector used by the FOXTEL Digital STU to be shared with another item of equipment. This item is referred to as the 'loop-through device' as it is connected to the VCR SCART connector at the back of the FOXTEL Digital STU rather than directly to the television (see diagram on the previous page). Usually this device is the VCR.

If you have a 'loop-through device' you use the **av** button on the FOXTEL Digital Remote to switch between the FOXTEL service and the loop-through device.

1. To switch to the looped-through device, press the **av** button on the FOXTEL Digital Remote.

Once you have pressed the av button, all the buttons on the FOXTEL Digital Remote are disabled, (unless it has been programmed as shown in this guide, in which case it will control your television's functions) except FOXTEL and the FOXTEL Digital Guide buttons - **tv guide, box office, active** and **planner**.

2. To return to FOXTEL, press **FOXTEL** (or any of the FOXTEL Digital Guide buttons).

- *If you want to use the 'loop-through' facility, your television must be connected to the TV SCART connector on the FOXTEL Digital STU while the loop-through unit (e.g. VCR) must be connected to the VCR SCART connector on the FOXTEL STU and the Video Output for the STU must be set to PAL.*
- *If your setup does not include a looped-through device then your television will display a blank screen when the av button is pressed. To return to FOXTEL, press the FOXTEL button.*
- *If the FOXTEL Digital STU is not responding to the FOXTEL Digital Remote, it may be because the av button on your Remote has been pressed. Press FOXTEL to reactivate the FOXTEL Digital Remote.*

FOXTEL Digital Remote Functions in AV mode

When in AV mode with a Television Code programmed into the FOXTEL Digital Remote the buttons perform the following functions

1. Power

The **Power** button will operate the Power or Standby function on your television.

2. FOXTEL

Switches the FOXTEL Digital Remote back to FOXTEL mode and allows the FOXTEL service to override any loop-through device.

3. tv guide

Switches the FOXTEL Digital Remote back to FOXTEL mode, allows the FOXTEL service to override any loop-through device and displays the FOXTEL Digital Guide.

4. box office

Switches the FOXTEL Digital Remote back to FOXTEL mode, allows the FOXTEL service to override any loop-through device and displays the FOXTEL Box Office menu.

5. active

Switches the FOXTEL Digital Remote back to FOXTEL mode, allows the FOXTEL service to override any loop-through device and displays the FOXTEL Active menu

6. planner

Switches the FOXTEL Digital Remote back to FOXTEL mode, allows the FOXTEL service to override any loop-through device and displays the FOXTEL Planner

7. setup

Activates your television's teletext decoder if available.

8. i

Clears/removes television information display

9. Arrows, select and back

These buttons are disabled when the FOXTEL Digital Remote is in AV mode.

10. Volume +/-

Change the volume on the television.

11. Channel +/-

Change channel on the television.

12. mute

Mutes the volume on the television.

13. help

Acts as the AV button did on your television's remote control, switches between AV inputs on the television.

14. Number Buttons

The Number buttons (0 - 9) change channel on the television.

15. Coloured Buttons

These buttons are disabled when the FOXTEL Digital Remote is in AV mode

Note: not all the above functions are supported for all televisions in the Code library

Setting the Code for your Television

To set your Television Code:

1. Switch your television on (not on standby).
2. Find your Code in the Television Code Reference section at the end of this guide. Codes are listed by TV manufacturer name. The most common Code is listed first.
3.  Press and release the **av** button on the FOXTEL Digital Remote.
4. 
 Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital Remote flashes twice
5.  Now enter your 4-digit Television Code using the number buttons. The LED will flash twice to indicate that the Code has been accepted.
6.  Point the FOXTEL Digital Remote towards your Television and press the **Power** button. If your Television switches off, the FOXTEL Digital Remote is successfully setup to control your Television set.

- Some televisions do not switch on when the **power** button is pressed. If this occurs try pressing a "number" button on the FOXTEL Digital Remote to switch on your television.
- If your television does not respond, follow steps 1 through 6 for each Television Code listed for your television brand. If none of the Television Codes listed for your brand operate your device, then try the Search Method described further in this guide if your brand is not listed at all.
- Some Television Codes are quite similar. If your device does not respond or is not functioning properly with one of the Television Codes, try another Code listed under your brand.

Search Procedure

If your television does not respond to the FOXTEL Digital Remote after you have tried all the Television Codes listed for your television brand, you may need to search for your Television Code. This method will also work if your television brand is not listed at all. An alternative to this search procedure is to use the FOXTEL Digital Remote's learning capability as described on the following page.

To search for your Television Code:

1. Switch your television on (not on standby).
2.  Press the **av** button on the FOXTEL Digital Remote.
3.  Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital Remote flashes twice.

4.  Press the **av** button and release.
5.  Now point the FOXTEL Digital Remote towards your Television and press the **Power** button.
6.  If your television turns off press the **select** button to store the Code
7.  If your television does not turn off, press the **av** button again, followed by the **Power** button. Keep alternating between the **av** and the **Power** buttons until your television set turns off.
You may have to press these buttons many times (up to 180 times) so please be patient.
8.  As soon as your television turns off, press the **select** button to store the Code.

- *Some televisions do not switch on by pressing the **Power** button. Please try pressing a number (0-9) button to switch your television back on.*
- *If you cannot control the television properly, please continue the Search Method, as you may be using the wrong Code.*

Identifying the Code programmed into the FOXTEL Digital Remote

Once you have set up the Code for your television, you can recall back your television Code for future reference.

-  Press the av button on the FOXTEL Digital Remote.
- 
 Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital remote flashes twice.
-  Press **9 9 0**. The LED will flash twice.
-  For the first digit of your four-digit Code, press **1** and count all the red flashes. If there are no flashes, the digit is "0".
-  For the second digit of your four-digit Code, press **2** and count all the red flashes. If there are no flashes, the digit is "0".
-  For the third digit of your four-digit Code, press **3** and count all the red flashes. If there are no flashes, the digit is "0".
-  For the fourth digit of your four-digit Code, press **4** and count all the red flashes. If there are no flashes, the digit is "0".

You now have your four-digit Code.

Learning Feature

The FOXTEL Digital Remote offers a Learning Feature that allows you to copy almost any function from your original remote control onto the FOXTEL Digital Remote.

Please note that the Learning Feature is not possible when the FOXTEL Digital Remote is in FOXTEL mode. The **av**, **FOXTEL**, **tv guide**, **box office**, **active** and **planner** buttons can not have a function learnt onto them.

Before you start:

- Ensure your original remote control is working correctly.
- Ensure the FOXTEL service is not displaying battery low indicator message
- Ensure the FOXTEL Digital Remote and your original (television) remote control are pointing at your television
- The FOXTEL Digital Remote can learn up to 20 functions

Example: To copy the "Power" function from your television remote control onto the Power button in AV mode of the FOXTEL Digital Remote, follow the steps below:

- 1.** Place the FOXTEL Digital Remote and your television remote control on a flat surface. Ensure the ends which you normally point at your television are facing each other (as illustrated above). Keep the remote controls at a distance of 2 to 5 cm (one to two inches).
- 2.**  Press the **av** button on the FOXTEL Digital Remote.
- 3.**   Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital remote flashes twice
- 4.**    Press **9 7 5** (the LED will flash twice).
- 5.**  Press and release the button on the FOXTEL Digital Remote where you want to place the learned function (e.g. **Power** button). The LED will flash rapidly.
- 6.**  Press and hold the button on your television remote control that you want to copy (e.g. Power button) until the LED on the FOXTEL Digital Remote flashes twice.
- 7.** If you want to copy other functions repeat steps 5 and 6 by pressing the next button you want to copy by learning.
- 8.**  To exit the learning mode press and hold the Select button until the LED flashes twice. Alternatively, do not press any button for 10 seconds and the FOXTEL Digital Remote will time-out of learning mode.

- You may choose to select a button that allows you to switch a function on and off (e.g. Pressing the Mute button once will mute the sound, pressing it again will return the sound). If you experience difficulties learning this function onto the FOXTEL Digital Remote, then in Step 6, press and release the button on your original television remote control instead of holding it down.

- If you have trouble using the learning feature ensure you are away from direct sunlight or incandescent lighting when completing the steps above.

Deleting a learned function from AV Mode

To delete a Learned Function from the FOXTEL Digital Remote, complete one of the following three options:

Delete a single learned function

1. Press the **av** button on the FOXTEL Digital Remote.
2. Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital remote flashes twice.
3. Press **9 7 6** (the LED will flash twice).
4. To delete the Learned Function, press the button you wish to delete twice. The LED will flash twice to indicate that the function learned on the button has been deleted. This button will now revert back to its original function.

Delete all learned functions

1. Press the **av** button on the FOXTEL Digital Remote.
2. Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital remote flashes twice.
3. Press **9 7 6** (the LED will flash twice).
4. Press the **av** button **twice**. The LED will flash twice to indicate that all the learned functions have been deleted. All learned buttons in AV mode will now revert back to their original function.

Delete all learned functions and Television Code

1. Press the **av** button on the FOXTEL Digital Remote.
2. Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital remote flashes twice.
3. Press **9 8 1**.
4. The LED will flash twice to indicate that all learned functions and any Code has been deleted. All buttons in AV mode will now be disabled.

Volume Direct

The Volume Direct feature makes it possible for the **volume +/-** and **mute** buttons on the FOXTEL Digital Remote to control the volume of your television rather than the volume of the FOXTEL Digital STU. This feature will occur in FOXTEL and AV modes.

1. Press the **av** button on the FOXTEL Digital Remote.
2. Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital Remote flashes twice.
3. Press **9 9 3** (the LED will flash twice).
4. Press the **av** button. The LED will flash twice to indicate that Volume Direct has been set. The FOXTEL Digital Remote will now control the volume of your television even when in FOXTEL mode.

To reset the Volume Direct feature so that the FOXTEL Digital Remote controls the volume for the FOXTEL Digital STU only, complete the following steps

1. Press the **av** button on the FOXTEL Digital Remote.
2. Press and hold the select button, then press and hold the red button. Keep both buttons held down until the LED on the FOXTEL Digital Remote flashes twice
3. Press **9 9 3** (the LED will flash twice).
4. Press the **volume +** button. The LED will flash twice to indicate that Volume Direct has been reset. The FOXTEL Digital Remote will now control the volume of the FOXTEL Digital STU.

To control the volume of your home theatre system/amplifier with the FOXTEL Digital Remote, learn the volume +, volume - and mute buttons from your home theatre system/amplifier remote control into the FOXTEL Digital Remote. Finally set the Volume Direct feature to ensure the **volume +**, **volume -** and mute buttons control the home theatre system/amplifier when the FOXTEL Digital Remote is in FOXTEL mode.

Abbreviations/Terms used in the guide

- SCART: A SCART cable carries the video, audio and system control signals, to and from the VCR, TV, Games Console or other equipment.
- STU: Refers to the FOXTEL Digital Set Top Unit.
- Loop Through: An input signal that is redirected, looped through and sent back out to make it available to be displayed by another device (e.g. the FOXTEL Digital STU).
- LED: Light Emitting Diode (this is on the front panel of the STU and top of the FOXTEL Digital Remote) which light up when buttons or functions are selected.”
- av: The **av** button is intended to be used if you connect additional audio/visual equipment to your television.

Trouble-shooting

Problem	Possible Cause/s	Solution
The FOXTEL Digital Remote is not working	Batteries are flat FOXTEL Digital Remote is damaged	Replace batteries Contact a representative from the place of purchase
The LED flashes on the FOXTEL Digital Remote but there is no response from the FOXTEL Digital STU	Line of Sight issue FOXTEL Digital Remote is in AV Mode FOXTEL Digital STU not responding	Ensure that the path from the FOXTEL Digital Remote to any device is not obstructed in any way Press the FOXTEL button on the FOXTEL Digital Remote Refer to the FOXTEL Digital Set-Top Unit Guide
The FOXTEL Digital Remote does not respond in AV mode after pressing a button	FOXTEL Digital Remote is in FOXTEL Mode Wrong Television Code used	Press the av button on the FOXTEL Digital Remote Try another Television Code Try the Learning Feature Try the Code Search Feature
The FOXTEL Digital Remote does not operate your television	Batteries are flat Line of Sight issue	Replace batteries Ensure that the path from the FOXTEL Digital Remote to any device is not obstructed in any way
The FOXTEL Digital Remote is not performing commands correctly	Wrong Television Code used FOXTEL Digital Remote is damaged	Try another Television Code Try the Learning Feature Try the Code Search Feature Contact a representative from the place of purchase
Original device remote control does not function	Batteries are flat Original device remote control faulty	Replace batteries Contact a representative from the place of purchase/manufacturer

Trouble-shooting

Problem	Possible Cause/s	Solution
<p>The Learning Feature does not work</p>	<p>Original device remote control faulty</p>	<p>Check that the batteries of the FOXTEL Digital Remote are not flat</p> <p>Contact a representative from the place of purchase/manufacturer</p>

Before Contacting Your Retailer

Prior to contacting your retailer for any technical assistance regarding the information covered in this guide, please refer to the following points which may resolve any technical issues you may experience:

- 1.** Ensure that you follow the instructions for battery installation and replacement as outlined on page 3 of this Advanced User Guide.
- 2.** Ensure that the path from the FOXTEL Digital Remote to the device is not obstructed in any way (there must be a clear line of sight).
- 3.** If you are trying to control the FOXTEL Digital service ensure the FOXTEL Digital Remote is in FOXTEL mode by pressing the FOXTEL button
- 4.** If you have programmed a Television Code into the FOXTEL Digital Remote and are trying to operate your television ensure that the FOXTEL Digital Remote is in AV mode by pressing the AV button.
- 5.** Ensure the device you are operating with the FOXTEL Digital Remote is working correctly. You may need to use the original remote control for the device to ensure it is functioning correctly. If you continue to experience problems with the original remote control, refer to the manufacturers instructions for the device.
- 6.** Please ensure that you read this manual thoroughly. This guide has been designed to guide you through the steps required to successfully use the FOXTEL Digital Remote supplied.

If you require further technical assistance, please contact your retailer or the support hotline 1300669347 8:30am-6:00pm (Eastern Standard Time).

Warranty

Universal Electronics B.V. warrants to the original purchaser that this product will be free from defects in materials and workmanship under normal and correct use for a period of one (1) year from the date of original purchase. This product will be replaced free of charge if it has been proven to be defective within the one (1) year warranty period.

This warranty does not cover product parts that are subject to wear, that can be considered as consumable parts by their nature or that are made of glass. Further, this warranty does not cover cartons, carrying cases, batteries, broken or marred cabinets or any other item used in connection with the product.

To obtain warranty service during the warranty period, please contact our customer service. Please notice that we need your purchase receipt so that we may establish your eligibility for service.
