### STEP 1 CAPTURE A STILL IMAGE

If the image is not captured...

Is there enough power left in the batteries? Install new batteries in the camera.

### STEP 2 RECORD A VIDEO CLIP

#### To switch to the still image (single shot) mode

- ① Press the [▶] button.
  - The menu to select the shooting mode appears.
- ② Press the [▶] button to select the [video icon] icon, and press the SET button.
  - The camera is now ready to capture a single still image.

### STEP 3 VIEWING IMAGES

To switch to the Shooting Screen, press the playback button [▶].

Press the playback button [▶] to switch between the Shooting Screen and the Playback Screen.

### STEP 4 ERASING FILES

#### Did your photos turn out the way you hoped?

Even if you make a mistake, it's easy to erase the pictures you aren't satisfied with. Unlike film cameras, with a digital camera you can take all the photos you want, keep the ones you like and delete the rest.
